

Notes on entering the Newhaven Yacht Squadron marina.

Please be aware that when you are going towards the marina, you are leaving another harbour (Westernport Bay), therefore you leave the red mark to Starboard, not to port, and leave the green mark to Port.

## I. Chart of Marina Entrance

1. Two orange triangular marks on the marina wall show the best passage to and from the marina.
2. You are on course when they line up.
3. At night lights are fixed blue.
4. Beware of strong tidal flows that can take you well off course.
5. If the rocks at the base of the Isolated Danger Mark are just visible there is approximately 1.4 metres of water at the entrance.

Here is a section of the Navionics chart showing the entrance and the leads.
